Dimensions

Pot

Item # 1308020

Available colors:

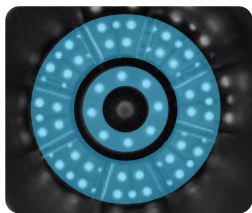

Black

White

Terracotta

A Pyramid base

Pyramid base forces water to drain at the outside edges and minimizes wet zone.

B Air flow

Non-draining holes allow oxygen uptake in center of root mass, and prevent roots from growing down.

C Excellent drainage

Legs connected to edge holes breaks drainage surface tension eliminating saturated zone.

D Tall legs

3 cm tall legs prevent root contact with soil and pathogens for nutrition control and risk management.
