

Zephyr V2 pot

Developed for optimal root oxygenation

plantlogic
innovative products
for smart growers

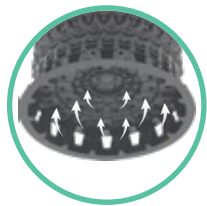

A Unique wall design

Side wall shape helps prevent compacting and root spiraling improving root architecture.

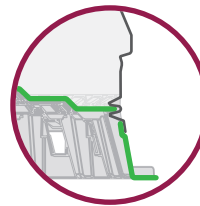

D Excellent drainage

Pyramid base forces water to drain at the outside edges, which minimizes wet zone.

B Air flow & oxygenation

Non-draining central holes allow oxygen uptake in center of the root mass, and prevents roots from growing down.

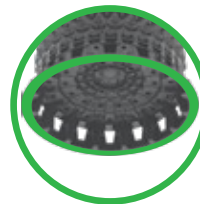

E Strong connection

Gear slots are specially designed for greater base and wall support.

C Tallest legs in the market

7 cm tall legs prevent root contact with soil and pathogens.

F Stable base with large surface area

Wide base is more than 5x as stable than any other pot with legs.

Capacities

25L Pot

Item # 1301144

30L Pot

Item # 1301053

40L Pot

Item # 1301143
